Sir,

Plague - Mysore State - Kadur and Hassan Districts - Threatened out-break in South Kanara - Preventive measures - employment of Plague staff -sanctioned applied for.

Ref: Letter C.No. 1636-II-39 dated 11-10-1939 from the Dt. Health Officer, South Kanara.

****

On 7-10-1939 there was a death in Udipi town suspected to be due to plague. The victim was a 12 year old girl who came from Sringeri (Koppa-Kadur District, Mysore). Necessary preventive measures were taken by the Health staff against further infection of the disease and no subsequent attacks have been reported.

2. I am informed that plague is prevalent in the Districts of Hassan and Kadur of Mysore State adjoining this District. There is bus communication between those places and this District and large number of coolies of this District working over the ghauts are likely to return to their native villages on account of the out-break of plague there. There is, therefore, the danger of the disease being imported to this District. To check this, the Dt. Health Officer suggests the opening of inspection depots at the frontier stations of Someshwar, Charmadi and Shirady. He has already deputed some members of the ordinary District Health staff for duty at those places until proper arrangements are made.

3. I agree with the Dt. Health Officer that as a precautionary measure against the spread of the disease in this District, opening of inspection depots at the places suggested by the District Health Officer is of urgent necessity. I therefore request that the Government may be pleased to sanction the employment at each of the above named inspection depots, a plague inspector on Rs. 55/- p.m., a peon on Rs. 12 p.m. and 3 coolies on daily wages for a period of one month in the first instance.

4. I have requested the bus companies to stop the buses for inspection at the frontier. The Dt. Superintendent of Police has been requested to give necessary police aid at the places mentioned above.

For Collector.
